### **My first camping**

Greatson, Jayden, Carina, Hyatt and I went camping last summer holiday. The campsite we booked is the Lady MacLehose Holiday Village which located in Sai Kung Country Park.

This is the first time I went camping. I chose a bungalow which can accommodate four persons. The bungalow contains two bedrooms, two bathrooms and a sitting room. I shared the bungalow with Hyatt and his mother. I talked and played board games with Hyatt in our sitting room at nighttime.

There are many facilities provided by the Holiday Village. We played badminton, table tennis, TV games and board games. I also went to the trail for health walking and viewing the butterflies. This was also my first time to play squash and archery. I found that it is so cool to hit the centre of archery targets.

I enjoyed this camping experience. I love the beautiful scenery and facilities in this campsite very much. We left the campsite before the severe tropical storm Talin attacked Hong Kong. The bad weather did not affect our trip. It was the first time I slept over with my friends. It was really an unforgettable experience. I hope we can have a camping again in near future.

### **My trip to Ocean Park**

On the thirteenth August, I went to Ocean Park with my Best friends, Ashley and Charlotte. It was about ten thirty in the morning when we arrived there. However, it started to rain heavily. Ashley suggested us going to somewhere with shelter. Hence, we decided to visit the aquarium.

Wow! It's amazing! There are many types of fishes, seahorses, stingrays and other marine animals! There is a tube where we can see schools of fish wandering in water. The view was astonishing there!

Next, we went to see the adorable pandas! Sadly, we could not go into the Panda Village as a notice was put up at the entrance saying that the pandas were sick. What's a pity! Then, we turned to the monkey house. The little monkeys there were cute. Ashley was so excited to see them as monkeys are her favourite animals.

After that, we took a ride on the Ocean Park Express and went to see the world's smallest monkeys and the red pandas.

After seeing the lovely animals, we had lunch at a restaurant in the park. We ordered two large pizzas, some seafood spaghetti and fried pork cutlet rice. We had good appetites.

After lunch, we rode on the roller coaster and played some games and went home in the evening.

This trip was unforgettable because I rarely get to change to meet up my friends outside school.

### **My Christmas Holiday Plan 2023**

Christmas is a festival in December. It usually lasts for three days, starting from 24<sup>th</sup> December to 26<sup>th</sup> December.

24<sup>th</sup> December is Christmas Eve. I am going to decorate my home on that day, especially hanging my Christmas stocking. I hope Santa will fill the stocking with gifts. Besides, I am going to bake Christmas biscuits for my friends. My mom and I may go to the Christmas market and sing Christmas carols together. Then, I am going to exchange gifts with my friends at the Christmas party, too.

The next day, Christmas Day, I am going to eat a lot of festive food, like Christmas puddings and turkey. I am going to play games and watch TV with my dad. But I am not going to stay up late because I want Santa to come earlier.

26<sup>th</sup> December is Boxing Day. I am going to get up early and unwrap my Christmas presents I get from Santa, my family and friends. I can't wait to celebrate Christmas!

### **My Christmas Holiday Plan 2023**

Christmas is on the way! I have planned a number of things to do in this holiday.

Firstly, I am going to keep up with my windsurfing training. I want to make more progress in this holiday. After the training, I am going to have big feasts with my parents and grandparents.

Secondly, I am going to join my friend's Christmas party. I think we can play some 3D video games and swim in the swimming pool together.

Third, I am going to spare a few days for examination revision. The examination is going to take place right after the holiday so I must study hard in this holiday.

### **My Christmas Holiday Plan 2023**

Christmas is around the corner! We are going to have the holiday from 22<sup>nd</sup> December to 1<sup>st</sup> January. I have got a to-do-list for this holiday.

First, I am going to buy some presents for my friends and family. I am going to buy some toys for my best friends. Also, I am going to buy my mum a tube of handcream. I think the handcream can help my mum keep her skin smooth in winter. I am going to buy my dad a tie. I want him to wear it for work.

Second, I am going to have Christmas dinner with my parents and grandparents. We are going to eat turkey and some gingerbread.

Lastly, I am going to revise for the upcoming examination. I will work very hard on it. I hope I can get good results in this examination.

I think this holiday will be amazing and fruitful!
