My birthday

My birthday is on the fifth of April. Sometimes, this day is also Ching Ming Festival. This year, my birthday is not Ching Ming Festival, but it is in the Easter holiday. I don't need to go to school.

I had some special activities on my birthday this year. In the morning, I unwrapped my birthday presents. I got a lot of Pokémon cards. I felt very excited. Then, I went to have lunch with my parents. We ate Japanese food. It was yummy. I like to eat Japanese food.

In the afternoon, I went to join a Mathematics competition. It was very difficult. I did many exercises for this competition in the Easter holiday. After the competition, we went to have dinner. We ate some delicious dessert. Then, we went to play in Namco. I liked to throw some coins in the rainbow game. I got some small gifts from the game.

In the end, we went home and ate my birthday cake. There were many strawberries on the cake. I like it because they are my favourite.

It was a happy day. My birthday wish is to have a healthy life.

My Easter Holiday

Last week was my Easter holiday. My parents took me on a trip to Beijing. We went to Beijing by airplane and began our adventure.

On the first day, I got up at 4:20 in the morning. We went to Tiananmen Square to watch the raising of national flag. A sea of people were there already. The flag-raising ceremony was very solemn.

In the afternoon, we went to the Great Wall. It was like a dragon snaking through the mountains. There was a famous Chinese saying, "One is not a true man unless he climbs the Great Wall." I thought I was a true man because I hike a section of the Great Wall.

On the second day, we went to the Summer Palace. The Summer Palace was famous for its royal garden. We took a boat on the Kuanming Lake and listened to the guide. She said the lake in winter would freeze and could be used for skating. It sounded incredible. The Summer Palace was large. It was a great place to relax and enjoyed the nature.

On the third day, we visited the Palace Museum and the Temple of Heaven. In ancient times, the Palace Museum was the place where emperors lived. It was magnificent and grand.

Beijing was an amazing place. It was a modern city and rich in history. The trip of Beijing was wonderful. I love Beijing.

◆ Last week, my family and I went to Okinawa in Japan. First, we took the flight early in the morning. At noon, we arrived at Okinawa. My dad rented a car and took us to play.

Day four and day five were the most impressive. On day four, we first went to the Pineapple Park, we rode a pineapple train and I bought a toy, then we ate a pineapple popsicle and pineapple ice-cream, they were so delicious! Then, we went to a zoo, we first saw a sand rat, it ran so fast! Then, we fed some guinea pigs, Shiba Inu dogs and goats, the dogs were so cute! I even walked a dog! Then we saw a giant tortoise and some flamingos and swans. After lunch, we went to a park. There were slides, ziplines, and we could climb to the top, when I climbed to the top I could see the topside view. It was beautiful, we had lots of fun. At night, we ate lots of sushi, it was so delicious!

On day five, we went to an outlet. I bought a lot of toys, my mom bought a lot of clothes. Then, we went to swim in the swimming pool in the hotel. Then, we went to another outlet and had lunch. We ate teppanyaki, it was very yummy. At night, I ate curry for dinner, my sister and my mom ate udon, my dad even ate grilled ell rice, it was so yummy!

We had an enjoyable trip!

My ice-hockey training

Last Monday, (The first day of Easter holiday), I went to Shenzhen with my mum because I had an ice-hockey training course there.

On the second day, I can't wait to go to the ice rink. First, I put on all my gears and went down to skate (Because it's still too early.) I felt like I was flying. It was such an enjoyable experience!

Later, all my teammates came. So, the coach started to teach: how to stop correctly, I tried a lot, but I still couldn't achieve it. I was a little frustrated. However, I practised many times and I finally made it! I felt very thrilled! Next, the coach taught us how to flick the puck, but I failed to flick it up due to the thickened stick made by my mum. I was very angry, I succeeded eventually by changing with another stick.

Later, the coach said we only had fifteen minutes left, so we started a mini race and it was finally over, I was so exhausted and went back to the hotel and enjoyed my lunch.

I really looked forward to the next training!

Continuous Art Harbour 2024

At Easter holiday I went to 'teamLab: Continuous' exhibition at Tamar Park with my family. There were crowds of people and many big colourful eggs there. It was interesting and amazing.

The Leisure and Cultural Services Department (LCSD) joins hands with international art collective teamLab to present the 'teamLab: Continuous' exhibition at Tamar Park. Hundreds of colourful luminous installations will continuously change colours and let visitors interact with them. Similarly, the adorned trees in the park will also respond with shifting coloured lights and joyful sounds. The exhibits span across the lawns of Tamar Park and extend to the Victoria Harbour, showcasing the vibrant harbour front areas of Hong Kong.

The exhibition was so wonderful. I could see eggs slowly changing colours one after another. It was purple, pink, yellow, orange, blue, green... and I could hear soft music at the same time too. We took a lot of photos.

After visited the 'teamLab: Continuous' exhibition, I realised that the night view of Hong Kong was so beautiful. I love it very much!
